O Próximo Passo – Sobrevivendo no Espaço Através da Alma

Trecho do 357 KSW às 2:32.
Nota: O resumo não foi verificado pela FK. Favor ouvir a gravação original e ler Transcrição em inglês após o resumo. (Resumo feito pela FK Brasil)

Resumo

Após o intervalo do 357 KSW, o Sr. Keshe deu um ensinamento muito importante sobre como, durante os próximos 4 meses, os Buscadores de Conhecimento (BC) darão um enorme salto na compreensão de nossas almas, se quisermos sobreviver no espaço. Que aprenderemos a interagir com os campos de nossa alma, e através de nossas emoções, a absorver os campos do Universo, e seremos capazes de criar o que precisamos em qualquer lugar do Universo que escolhermos.

Ele começou a dizer, como estamos nos tornando "Homem do Espaço", o BC tem que entender (a interação dos campos.) Muitos de vocês construíram e entenderam os reatores, que eu chamo de Formação Estelar (FE). A FE tem a forma de 3 reatores (formando um triângulo) como base, e 1 reator acima, e contém nos diferentes níveis, os campos que você precisa para criar a manifestação dos campos, ou seja, para se tornar tangível.

Estamos tentando fazer com que você compreenda e desenvolva ainda mais seus conhecimentos. Para fazer isso, queremos que você esqueça os sistemas físicos e se concentre nos campos que eles geram. Isto é o que a próxima geração do trabalho tem que ser. Você deve considerar a interação dos campos e não os motores e os reatores.

É aqui que entra em operação o próximo passo para entender o trabalho da física universal. Aqui queremos analisar o efeito dos campos de força e não a tangibilidade dos Gans ou dos sistemas. Criamos uma condição dos campos do Universo (U), que se tornam interativos na condição e na posição que desejamos. Isto é parte do novo ensinamento. Na semana passada, você viu a bola girar em torno daquele centro imaginário mostrando sua posição. Esse centro imaginário tem que se tornar a Alma do Homem (ADH). É a Alma da Física (ADF) que decide se quer ou não colocar sua força de campo para se manifestar, a fim de que possamos ver os reatores. Não é por nós construindo reatores para mostrar a manifestação de um sistema.

O conhecimento dos BC, tem que se tornar parte da compreensão da criação dos campos, da absorção dos campos, da separação dos campos, e da visão dos campos. Tudo isso se dá através do uso da interação dos campos da ADH e da ADF, da mesma forma que a interação dos campos da Terra e do Sol cria a luz do dia, e dá diferentes luzes, e diferentes posições e ângulos. A ADH e a ADF têm que entender que elas criam da mesma forma, como o Sol e a Terra criam. Na interação de diferentes campos de força

em diferentes ângulos, elas criam diferentes condições de matéria da manifestação, se assim o desejarem. A maneira como os campos do Sol e da Terra, em um determinado ângulo, criam as árvores e, em outro ângulo, criam os arbustos e, em outro ângulo, em outra parte do mundo, criam outra árvore e arbustos diferentes.

Portanto, agora entendemos que o conhecimento tem que se estender para a dimensão dos campos, que através dele, se quisermos, podemos criar o estado da matéria, ou estado de manifestação sem a matéria. Sabemos que isto existe, pois criamos os Gans, que não estão no estado da matéria, mas em uma condição de plasma condensado, que vemos, absorvemos e observamos como plasmas em movimento. Somente quando você traz o 4º estado dos campos como uma Inércia, que você vem a tocar, então os Gans se manifestam no estado da matéria, antes que ela esteja em estado de plasma. É assim que muitos de vocês BC têm que começar a trabalhar, isto é, sem a existência da matéria. Eu já expliquei isto a vocês antes, se vocês estendem sua mão e desejam ouro, ou desejam uma maçã, a emoção da maçã já está registrada em seu cérebro. A ADH através do olho do homem, vê o objeto, e através da dimensão da ADF, cria a maçã na mão do homem.

Os BC estão correndo atrás de MaGrav, de motores dinâmicos, e de mais um monte de coisa, usando o estado da matéria -- isto tem que parar! Especialmente agora que você já viu os efeitos dos campos, e a interação dos campos. Criar e desenvolver sistemas que não usam o estado da matéria, e só cria campos sem estado da matéria. (Mas) você também pode usar a condição de estado da matéria para criar campos, e com ela criar uma alma, que a emoção do homem através dessa alma, e através da emoção do sentimento da ADH, pode criar a condição (da matéria), ou o próprio estado da matéria.

Muitos BC estão passando gradualmente pela fase de compreender o poder da alma. Em breve, quando você se tornar mais perito nisso, você será capaz de colocar uma imagem da Torre Eiffel à sua frente, e através da emoção e compreensão da transmutação dos elementos dos campos da existência, você poderá se manifestar nessa posição. Não há necessidade de um jato jumbo, ou de uma passagem de ônibus.

Como expliquei nos ensinamentos de terça-feira, que é dentro dos escritos do profeta, que a maturidade do homem virá quando ele puder compreender e conseguir a transmutação dos elementos. Com os novos ensinamentos, levamos o homem a um passo ainda maior no conhecimento. É a transmutação dos campos, que leva à criação dos elementos, ou posições e estruturas, ou manifestação. Os BC da Fundação Keshe na sua totalidade tem que se afastar da construção, e da construção de reatores dinâmicos, e tudo mais só para ver que algo acontece.

Você tem que entender a interação dos campos do que você faz, então você pode representar o homem, e ainda conseguir uma FE ao conectar suas almas, e voar para um planeta, um sistema solar, uma montanha, ou qualquer outro lugar. Um dos melhores sistemas de vôo já criado é uma família de 4, um pai, uma mãe, um filho e uma filha. É também um sistema equilibrado. Deixe-me explicar por que, porque você tem 4 almas que estão conectadas na fonte, na criação, na emoção. Agora você pode usá-las para criar uma FE da viagem, para ir aonde as 4 almas quiserem estar. Agora você entende, que

você não precisa de reatores dinâmicos, mas apenas da essência da criação da interação dos campos da ADH, para conseguir isso. Talvez a humanidade só amadureça quando entender isto. Quando você troca os reatores com a ADH, que em essência é um sistema dinâmico em si.

Agora, o principal movimento no ensino é afastar você, BC, deste caos, e passar para o próximo passo, que é sem sistemas dinâmicos, ou físicos. Nós trouxemos estes sistemas para que você possa confirmar a existência dos campos, e não para que você se apegue a eles, ou fique atolado em como você faz as misturas dentro deles, e fazendo coisas para a fisicalidade. Se depois de criar os campos dentro deles, e depois de retirar os sistemas, você ainda ver os efeitos existentes lá, então você passou para o próximo nível de compreensão da ciência e tecnologia.

O próximo nível para o BC é criar um ambiente onde os campos possam ser sustentados, e mostrar que eles podem ser controlados através da emoção, na essência da ADH, e que o homem pode replicar qualquer coisa em uma posição. No centro de pesquisa da FK construímos tal condição para mostrar, o que você pode chamar de tridimensional, e o que você pode dizer é transmutação. Em breve, mostraremos o novo sistema, no qual podemos criar uma ADH holográfica, não a fisicalidade do homem, e através dela, podemos criar a conclusão da dimensão física, se necessário.

O tanque de peixe que eu prometi mostrar já está tomando forma no centro de pesquisa da FK. Com o tempo, e por intuição e compreensão do processo pelos BC, mostraremos o tanque de peixe. E como prometi a vocês, que se quiserem ver a alma de Cristo, vocês verão. Que se você quiser ver a alma de qualquer um dos profetas do passado ou do presente, você verá. Porque, então, é você quem decide como eles ficarão, e por que eles estarão nessa posição. Como eu disse, muitas vezes, que trarei a condição de que vocês verão a alma de Cristo. Então você pode perguntar a ele como se sentiu na cruz, e deixá-lo responder.

O próximo passo no desenvolvimento da tecnologia para os BC tem que se tornar, a criação da interação dos campos na dimensão da existência. Entenda que se você tem 2 (campos), você tem o que chamamos, a interação dos campos, e se você tem 3 e 4 (campos), então você tem a alma e a manifestação da fisicalidade. Em essência, se você entender, você pode fazer o mesmo, você pode criar energias de campo em uma estrutura dinâmica, que você pode então replicar a estrutura, e os campos de força de um átomo. Até agora, os elétrons, prótons e nêutrons e seu movimento têm sido apenas teóricos, agora se você entender e puder criar estes pacotes de energia, então você pode ver o movimento exato, posicionamento, interação dos campos e como, e quando você pode mudá-los para se manifestarem em um estado de matéria, ou a energia do estado de campo.

This part of the technology, being able to understand the interaction of the fields forces is important to you, because it is the way you will absorb energies from the Universe to feed yourself in space. This is the reason we have started teaching and elevating you to this side of the technology, because when we take you into space we do not bring you

food and medicine. You are the one responsible to feed yourself through understanding how to absorb (the energies.) Up to now you went to the supermarket to pickup cheese to have the Ca, and a banana for something else, and then a meat for something other. When you eat the combination of foods your body receives the totality of the energies and the fields, that it need to survive the daily cycle. Now you go to the universal supermarket, where you choose which fields your body needs for its existence. We have changed you from your supermarket, where you go as objects to absorb the energies (from other beings), be it alive or dead, or killing something to receive it, to the exchange of (energies) in the supermarket of the Unicose.

This is where we are trying to bring mankind, and why we are pushing you and encouraging you. This is where the teaching is pushing you, where I want the KS to be, especially the teachers in the KFSSI, and those of you who teach workshops. And those of you who teach across this planet to the people who are interested to understand the work of the Creator, to show that the Creator works through the energy, and transfer of the fields, and not to the matter state. Now you understand, and this is what you have to push, and to elevate, and to bring into the understanding of the process of the new cycle.

So you have to realize how you can use your soul to tap into the universal energy, that it becomes the energies that your body needs, but without taking more than you need, as your body will bring the field balance, even bring love. As long as it is not poisonous, you can receive as much as you wish. This is part of what we brought you. We didn't bring all these Gans's for you to mix and to see if you can achieve flight or whatever. We gave and taught you the Gans's for you to understand the packages of energy (they contain), and how by looking at them, and by tapping into them, you can use the energy and the wishes to become the creator, or the mover of you, as an energy pack, and not in a matter state.

This is what the KS in the coming weeks have to understand and start developing in a very rapid way, that in the process of the creation, in the process of developing these technologies, you become wise to what you need. As I said, to a KS, give me time, I will bring the soul of those who carried out this atrocity last Friday to the position of the murder, and then they will bring their physicality to it. Then we will know who has done it, and who was carried away. As I said to the Iranian government officials, do not lash out at the nationals and the nation, as we will kill many fathers and sons, that there is no need for it, but leave it to the understanding of the new knowledge. We'll walk the soul of those who carried this out, and those who ordered it, into the position, that they will confess and we shall see how it was done. We don't use science and technology to kill another scientist, we use the Soul of the Creator, understanding the work of the soul to bring those to justice, and to tell us. As I said, when one shoots oneself, it is he himself who has to pay, but when one shoots another it becomes a murder.

In the process of understanding, as I promised, I will bring the soul of the Christ for those who are the believers in his path to see. I shall bring the soul of those who carried out this atrocity, to the point that their soul will manifest their physicality. Then there will be no accusation, about who, where, and how it was done. Even, the soul of those leaders who

planned this, whose offices are thousands of kilometers away, will be present at the same time. Now you understand what is the wish, what is the process of understanding, what is to become part of the new knowledge and understanding. There is nothing better than self confessions, especially when the STM brings man to the position of his misconduct through the STP. There shall be no judges or courts, as their own STP will judge their conduct. In a way, we choose to live correct, and we choose to take the correct amount of what we need, and no more, to confirm our existence in the position and in the dimension as we like. In so many ways, you have to start working to understand the transfer of fields, and not the matter transfer, and leave the process of the change to mankind.

The teachers of the KFSSI, those of you who have been teaching how to make MaGravs, how to create conditions, try now to teach the new cycle, that is, how to achieve the position. It is in a way to move the whole of the KF to its next step in the natural process of understanding and development. In the process of becoming and understanding of the creation. You have no choice, as now we have taken you and your knowledge to the next step. And in a way, you have to come, because if you have come this far with us, you have to take the last step to mature your soul and your knowledge to the totality, and not leave the whole, half way cooked. In a way, you have to come to understand what has been put on the table of knowledge.

The knowledge was not brought to create a new energy system. The whole knowledge was not to create a MaGrav system, or another patch. It was to show you, so that you could gain trust in the work, and that then we can work without physicality. Try to understand the process of interaction of your soul with your STP. Try to go through the barrier of needing confirmation in physicality to trust in what you do. Try to understand the process of the conversion of the energies. Try to see that if you can create conditions to absorb energies which you need to survive, without actually eating. Then sit down and repeat the test which was done before, as you remember, you put an orange on top of a cup, then you drank from the cup and tasted the orange. Now you become the cup, and put the orange in front of you, try to see and feel if you can tap into the resources of the STM, and not the STP, and taste to take the energy from the orange, that with it you can transfer it to the STP, that you can feel every taste and energy of that orange in every cell of your body, then you start getting prepared to become the man of Universe. Where the physicality of the matter becomes nonexistence.

It will take time for many of you to learn this phase, but we have started the process. In the next 4 months we'll push for the development that you gain that trust that you can attain physical dimension in the reality, in the process of transfer of the energy. It will come that when you take this energy from the orange within your soul, then through understanding of its property, you can replicate another orange on the same table. Then you understand the way that we carry the energies of love and care to become the energy essence of the creation. The whole process of the teaching from now on will go in that way.

The development of the new souls that understand the process of the conversion of matter to energy and fields, and emotion, and transfer of matter and emotional energy to the

matter state manifestation, if they wish so. The place, position, and time will be the choice of the creator and absorber of the fields.

We try to get the KS to understand that they have the interaction of the 2 most important entities, one of the STM, and the other the STP, to create and transfer any fields across the Universe, be it by position, or by its strength. And this is one of the reasons we introduced the Enhancement Unit (EU). Not by the position of curing or helping, or whatever, but to enhance the power of the STM that with it, man will learn how to survive the span of Universe without food or medicine, and without killing.

As I said, in past few days, I will bring the soul of the Iranian scientist to admonish the soul of those who tried to stop the science. You took the physicality, I will return the soul. It's the soul which made that physicality. Do not be shocked when he stands in front of you. And not in one, but in multitudes. Then it has to be when the man understands that the position and the time, is the wish of the Creator.

Try to start, now that you have seen the fields, do not go for the Gans of the orange itself, but go for the energies of the Gans itself. This is much easier for Transportation and Transmutation to the energy level. It has already been done. Try to taste the orange by looking at the cup and feeling it, to see if you taste it, if you can take the energy of it. And then repeat that with your lover, see if she can taste your love and your care. Then you understand the process, then you'll see the truth, and nothing is hidden, does she really love you, or is it a pretense to be there. Then the maturity of the time comes when you can keep silent and respect what you know.

As I said, when it comes to (traveling in) space, you will not know what is in front of you, except by understanding the emotion, because like the STM, it is nothing but energy fields. Now you will see what I teach today, what I explained today, is what has been taught over past 20 years. Now we extend (the knowledge), because now you understand the process you have been through, the understanding of the fields and energies.

It's not working to make things anymore, it's understanding the field transfers to find the freedom of the soul, irrespective of the time, position, and the strength. In the coming weeks we will show you new technologies, but this will become much easier to understand that you find a medium, that it becomes easier to transfer.

We gave you the orange in the matter state so hard, we give you the Gans in the essence of the fields of the orange, which is at the strength of your soul, and you can tap into it, and gradually you'll learn. Teach, not by illusion, but by the knowledge and science and technology, how you can tap into the energy of the Gans in the cup, that with it you can feel, taste what is in the cup. Could it be the Cup of the STM, is it love or deception, and which one do you accept? But as I said, be courteous not to utter the words, "I see lies." This is how in the Universal Community you decide if an entity in front of you wants to eat you, or wants to make love. Does it make everything available so that you can enjoy the existence, that is what we call, love making in the dimension of the Universe. Give the totality, the way you receive, and you receive and achieve the fulfillment of the

desire. The KS path to the final destination is made. It is you who has to find it and to be able to travel the path to reach the ultimate goal, then in that position, once you arrive, if your wish is to feel the essence of the Creator, what you call God, it will be available to you, if you reach the point of maturity of understanding. In so many ways, I explained in many different scientific languages to get you to the same point, and now it is time to reach that point.

As I said, it is the responsibility of the KS teachers, and those who teach and spread the knowledge, for you to understand the work of the fields and not the matter state, try to confirm the existence. Let people see with the eye of the STM, not with the eye of the physicality of the man. Let them feel the knowledge, the sense of creation, not by, "seeing is believing," but by sensing, and feeling the emotion, they do not need to see. Try in simple steps, in simple methods, you showed them how to make Gans's and patches, now show them to put the cup there, and see what they can absorb, don't tell them, "I transferred the energy of the apple in that one, of the orange in this one." You just put the cup and ask them, "tell me what you feel," When you do that with yourself, then you don’t need to kill to feed. You don't need to destroy to have. But it is given you, as you ask for, and it is given. This is how the work of the Universe is. When you ask and you are given, it's for you to use it, to elevate your soul and the soul of the others. And that it can be used now. Now many of you need to work. Need to go back to work. Need to understand the work of how to go back to work. In the coming weeks I'll teach you how simply you can transfer the essence of the energy and the emotion of the orange into the water. Many of you have tried, but you cannot transmute and transport it, because you missed one fundamental point. Many of you were so eager to do it, that you forgot what you did. Then at the same time what you need to re-manifest the entity.
Any questions?

BREAK >>>   (2:30).

Teaching Again

Look At Fields Effect - Not Reactors and Gans's

K-   as we are becoming man of space …   KS have to understand, as I said in the NACT   many of you have built all these reactor and understood what I call the SF. (2:32). In the shape, if you understand, each one has made its own Star Formation (SF), as one base, and the 3 bases, of the fields that you need, in different levels to create the manifestation of the fields, to become tangible. In a way, and what I see, what we are trying to get you to understand and further develop, is this, that forget about what we call the physical systems, and concentrate on the fields. This is what the next generation of the work has to be. In a way, that the interaction of the fields has to be considered, and not the motors and reactors.

STM becomes Center - STP Decides if It wants to Manifest or not

This is where the next step in understanding the work of the universal physics come into operation, where we don't look at the tangibility, we look at the field forces effect. **We don't look that we have Gans's, we create a condition of the fields of the U become interactive in the condition and the position that we want**. In a way, as part of the new teaching, (2:34). as you saw in the ball rotating around that imaginary center to show its position, **that imaginary center has to become the STM. The STP deciding if it wants to put its field strength to manifest for us to see the reactors. Not by building reactors to show the manifestation of a system**.

STM and STP interact like Sun and Earth - how daylight is created

The knowledge of the KS has to become part of **understanding the creation of the fields, absorption of the fields, separation of the fields, the vision of the fields, through the use of the interaction of the fields of the STM and the STP. The way the interaction of the fields of the earth and sun creates the dayligh**t, and gives different light and different position and angles. The STM and STP has to understand this, that it creates the same.

Different Angles give Different Field Strength and thus Different Matter States

In interaction of different field strength in different angles, it creates different matter condition of the manifestation, if they wish. **The way the fields of the sun, and the earth, in a given angle creates the trees, and in another angle creates the shrubs, and in another angle, in another part of the worl**d, creates another tree and a different shrubs.

Manifestation State is Condensed Plasma without the matter

So now we understand, (2:36). the knowledge has to extend into the D of fields, that through it, if we wish **we can create the matter state, or manifestation state, without the matter. We know that this exists as we create Gans's which are not in the matter state, but in a condensed plasma condition that we see and absorb and observe them as plasmas in motion**.

Inertia causes Gans to manifest as matter

Only when you bring the 4th state of fields as an Inertia, which you come to touch, then the **Gans manifests itself in the matter state**, before that it is in a state of plasma. It is the way that many of you, many of the KS have to start working without the existence of the matters.

STM sees Object through STP >> Creates in Hand by Emotion

The way I said before, you **put your hand out and you wish gold, you wish an apple, the emotion of the apple is registered within your brain**. The STM through the eye of the man, sees the object and through the D of the STP, creates the apple in the hand of the man. The KS, running of the MaGrav, running of the dynamic motors, running of everything else using matter state has to stop. Now that you have seen the effects of the fields and the interaction of the fields. Create systems, **develop systems that only creates fields and no matter state, and uses no matter state. (2:38). You can use the matter state condition to create fields, and with it to create a soul, that the emotion of the man through that soul, through the emotion of the feeling of the STM, that matter state** or condition can be created.

Maturity of Man comes when Achieve Transmutation of Elements

In so many ways, in the coming times, as you become more expert, as many KS are gradually going through the phase of understanding the power of the soul. **When you put the picture of the Eiffel Tower in front of you, through the emotion and understanding of the transmutation of the elements of the fields of the existence you can manifest yourself at any position** on the ?? there is no need for a jumbo jet, no need to get a bus ticket. The condition of, as I explained in the teaching of Tuesday, as it is within the writing of the prophet, that the **maturity of the man will come when he can understand and achieve transmutation of the elements**. With the new teaching we have taken the man to the further step in knowledge, that when you understand the transmutation of the fields, which leads to the creation of the elements, or positions and structures, or manifestation.

The totality the KF KS has to move away building and building, and building dynamic reactors and everything to see something happens. You have to understand the interaction of the fields of what you do, then you can stand for man, (2:40). and still achieve a SF in connecting their souls and take flight to the planet, solar system, mountain, and anything else.

Family of 4 - Best flight System Star Formation

I explained something **why a family of 4, a father, mother, a son, and a daughter, is one of the best flight systems, and balanced systems ever created. You have 4 souls which are connected, at source, in creation, in emotion, and now you can use it to create a SF of the travel** to where the 4 souls want to be. Now you understand, it doesn't need a dynamic reactor. It needs the essence of the creation of the fields interaction of the STM to achieve this. Maybe, only mankind become mature when he understands this, where you **exchange the reactors with the STM**, which in essence is a dynamic system itself.

The principle movement and motion, in teaching, is moving you KS from this mayhem and step of, lack of system and dynamic system. **We brought you these for you to be able to confirm existence of the fields. (2:42). We did not bring these for you to become attached to and get bogged down in how you, mixture inside them will do**

things for physicality. When you can create the mixtures inside, create the fields, and then you move the systems and see the effects are still existing, then you have moved to the next level of understanding of the T and science.

Fields can be Sustained and Controlled by Emotion of STM

The **next level for the KS is to create environment where the fields can be sustained, and fields can be shown that in the control through the emotion in the essence of the STM, man can replicate anything in one position**. In the KF research center we have built such a condition to show, where you might call it 3-D, where you might say it's transmutation, but in the new system which we will show in the coming time, we can create the holographic STM, not the physicality of the man, that through that, we create the ?? completion of the physical D, if we need.

What I promised you, to bring the fish tank to show, that tank is already taking shape in the research center in KF. In time and by intuition and understanding of the process by the KS, **then we show the fish tank. And I promise you one thing, you want to see the soul of the Christ, you shall see**. You want to see the soul of all the prophets of the past, (2:44). and present, you shall see. Because it is you then who decides how it will look, and why they will be in that position. As I said, many times, that I will bring the condition that you shall see the soul of the Christ. Then you ask him, how did it feel on the cross. And let him answer.

Interaction of 4 Field Energies and you create the Soul

Creation of interaction of the fields in the D of the existence has to become the next step in the development of T for the KS**. In understanding that if you have 2, you have the interaction of the fields. If you have 3 and 4, then you have the soul and manifestation of the physicality**. In essence of you understand, you can do the same, you can create field energies in a dynamic structure, that you can replicate the structure and the field forces of an atom. **Up to now electrons, protons, and neutrons, and their movement have been theoretical, now if you understand and you can create these energy packs, then you can see the exact movement, positioning, interaction of the fields, (2:46). and how and when you can change them to manifest themselves in a matter state, or the field state energy**.

We have to Feed Ourselves in Space through Absorbing Energies of the Universe

This part of the T, to be able to **understand the interaction of the fields forces is important to you, because it is the way you absorb energies from the U that you will feed yourself**. The reason we start teaching and elevate this side of the T, is that when we take you into space, as we do not bring you food, and medicine, it is you who is responsible to feed yourself, through understanding how to absorb, and how to feed. In a way, up to now you went to the supermarket to pickup a cheese to have the Ca, and picking a banana to have something else, and to have meat to have something else, that when you eat the combination your body receives the totality of the energies and the

fields that it can survive the daily cycle. Now you go to the universal supermarket where you choose which fields you need, and the body needs for its existence. We have changed your super hybrid market where you become objects to absorb the energies, be it live or dead, or killing something to receive it, to the exchange of the supermarket in the Unicose.

KF Teachers have to start teaching the Transfer of Field Energies

This is where we are pushing you, .. encouraging you, this is where we are trying to bring mankind. This is where the teaching is pushing you, .. where I want the KS, especially the teachers in the KFSSI, and those of you who teach in workshops. (2:48). **Those of you who teach across this planet to the people who are interested to understand the work of the Creator, to show that the Creator works through the energy, and transfer of the fields, and not to the matter state**. Now you understand, and this is what you have to push, and to elevate, and to bring into the understanding of the process of the new cycle.

So you got to realize **how you can use your soul to tap into the universal energy that it becomes the energies that your body needs, without taking more than what you need, as your body will bring the field balance, even bring love**. You can receive as much as you like, as you wish, as long as it is not poisonous. This is part of what we brought, all these Gans's. We didn't bring the Gans's for you to mix and see what you can fly or whatever. We gave and taught you the Gans's to understand the packages of energy and how by looking at them, and how by tapping into them you can use the energy and the wishes to become the creator, or the mover of you as an energy pack and not in a matter state.

This is what the KS in the coming weeks have to understand, and start developing in a very rapid way, (2:50). that in the process of the creation, in the process of developing these T, you become wise into what you need. As I said, to a KS, give me time, **I will bring the soul of those who carried out this atrocity last Friday to the position of the murder, and then they will bring their physicality to it.** Then we know who has done it, and who was carried away. As I said, to the Iranian government officials, do not lash out at the nationals and the nation, as we will kill many fathers and sons, that there is no need for, but leave it to the understanding of the new knowledge. We'll walk the soul of those who carried, who ordered into the position, that they will confess and we shall see how it was done. We don't use science and T to kill another scientist, we use the Soul of the Creator, understanding the work of the soul to bring those to justice to tell us. As I said, when one shoots oneself, it is him who has to pay. When one shoots other it becomes a murder. In the process of understanding, as I promised I will bring the soul of the Christ for those who are the believers in his path to see. I shall bring the soul of those who carried this atrocity to the point with that their soul will manifest their physicality. Then there will be no accusation, and who and where, and how it was done, **even from the offices of those who planned it, thousands of kilometers away, the soul of those leaders who planned this, (2:52). will be present at the same time**. Now you understand what is the wish, what is the process of understanding, what is to become part

of the new knowledge and understanding. There is no more than the self confessions, **when the STM brings man to the position of his misconduct through the STP. There shall be no judge or courts, as their own STP will judge their conduct**. In a way, we choose to live correct, we choose to take correct amount of what we need, and no more, to confirm our existence in the position and in the D as we like.

In so many ways, you have to start working in understanding of the field transfer and not matter transfer, and leave the process of the change to mankind. In a way, the teachers of the KFSSI, those of you who have been teaching how to make MaGrav, how to create condition, try now to teach the new cycle that how to achieve the position. It is in a way to move the whole of the KF, (2:54). to its next step of natural process of understanding and development. In the process of becoming and understanding of the creation. You have no choice as now, we have taken you and your knowledge to the next step. And in a way, you have to come, if you come this far with us, you have to take the last step to mature your soul and your knowledge to the totality, and not leave the whole, half way cooked. In a way, you have to come to understand what has been put on the table of knowledge.

The knowledge was not to create a new energy system. The whole knowledge was not to create a MaGrav system, or another patch. **It was to show you to gain trust in the work, that then we can work without physicality. Try to understand the process of interaction of your soul with your STP**. Try to go through the barrier of needing confirmation in physicality to trust in what you do. Try to understand the process of the conversion of the energies. **Try to see that if I can create conditions to absorb energies which I need to survive, (2:56). without actually eating.** Then sit down and repeat the test which was done before, as you remember, you put an orange and a cup, and you drank from the cup and you tasted the orange. **Now you become the cup, put the orange in front of you, see and feel if you can tap into the resources of the STM and not the STP, and taste to take the energy from the orange that with it, you can transfer it to the STP that you can feel every taste and energy of that orange in every cell of your body, then you start getting prepared to become the man of Universe**. Where the physicality of the matter become nonexistence.

It will take time for many of you to learn this phase, but we have started the process. In **the next 4 months we'll push for the development that you gain that trust that you can attain physical D in the reality, in the process of transfer of the energy**. It will come that when you took this energy from the orange within your soul, then through understanding of its property, if you can replicate another orange on the same table. Then you understand the way we carry the energies of love and care become the energy essence of the creation. The whole process of the teaching from now on will go in that way.

The **development of the new souls, (2:58). that understand the process of the conversion of matter to energy and fields, and emotion, and transfer of matter and emotional energy to the matter state manifestation**, if they wish so. The place, position, and time will be the choice of the creator and absorber of the fields. In a way we

try to get the KS to understand that they have **the interaction of the 2 most important entities, one of the STM and STP to create and transfer any fields across the U**, be it by position, or by its strength. And this is one of the reasons we introduced the EU. Not by the position of curing or helping, or whatever, but to enhance the power of the STM that with it, man will learn how to survive the span of U without the food, medicine and without killing.

As I said, in past few days, I will bring the soul of the Iranian scientist to ?? admonish the soul of those who tried to stop the science. **You took the physicality, I will return the soul. It's the soul which made that physicality**. Do not be shocked when he stands in front of you. And not in one, but in multitudes. (3:00). Then it has to be when the man understand the position and the time, is the wish of the Creator. Try to start now that you have seen the fields, do not go for the Gans of the orange itself, but go for the energies of the Gans itself. This is much easier for T&T into energy level. It has already been done. **Try to taste the orange by looking at the cup and feeling it, to see if you taste it, if you take the energy of it. And then repeat that with your lover**, see if she can taste your love and your care. Then you understand the process, then you'll see the truth, and nothing is hidden, does she really love you, or is it a pretense to be there. Then the maturity of the time comes when you can keep silent and respect what you know.

As I said, **when it comes to space, you will not know what is in front of you, except understanding the emotion, because like the STM, it is nothing but energy fields**. Now you will see what I teach today, what I explained today is what has been taught over past 20 years. Now we extend, because now you understand the process you have been through, the understanding of the fields and energies. (3:02). It's not working to make things, it's understanding the field transfers to find the freedom of the soul, irrespective of the time, position, and the strength. In the coming weeks we will show you new T, but this will become much easier to understand that you find a medium, that it becomes easier to transfer. We gave you the orange in the matter state so hard, we give you the Gans in the essence of the fields of the orange, which is at the strength of your soul, and you can tap into it, and gradually you learn. Teach, not by illusion, but by the knowledge and science and T, how you can tap into the energy of the Gans in the cup, that with it you can feel, taste what is in the cup. **Could be the Cup of the STM, is it love or deception, and which one do you accept. But as I said, be courteous not to utter the word, "I see lies." This is how in the U Community you decide an entity in front of you wants to eat you, or wants to make love.** Is it there by making everything available, that you can enjoy the existence, and that is what we call the love making in the D of the U. Give the totality, the way you receive, and you receive and achieve the fulfillment of the desire. The KS path to the final destination is made. It is you who has to find it and to be able to travel the path to reach the ultimate goal, then in that position, (3:04). once you arrive, if your wish is to feel the essence of the Creator, what you call God, it will be available to you, if you reach the point of maturity of understanding.

In so many ways, I explained in so many different scientific languages to get you to the same point, and now it is time to reach that point. As I said, it is the responsibility of the KS teachers, and those who you teach and spread the knowledge, for you to understand

the work of the fields and not the matter state, try to confirm the existence. **Let people see with the eye of the STM, not with the eye of the physicality of the man. Let them feel the knowledge, the sense of creation, not by seeing to believing, but in sensing, and feeling the emotion, they do not need to see. Try in simple steps, in simple methods**, you showed them how to make Gans's and patches, now show them to put the cup there, see what they can absorb, don't tell them I am transferred the energy of the apple in that one, of the orange in this one. You just put the cup and tell them, tell me what you feel, and do that with yourself, then you don’t need to kill to feed. You don't need to destroy to have. But is given you, as you ask for and it is given. This is how the work of the U is. When you ask and you are given, it's for you to use it, to elevate your soul and the soul of the others. And that ?? can be used now. Now many of you need to work. Need to go back to work.   (3:06) Need to understand the work of how to go back to work. In the coming weeks I teach you how simply you transfer the essence of the energy and the emotion of the orange into the water. Many of you have tried but you cannot transmute and transport it, because you missed one fundamental point. Many of you were so eager to do it that you forgot what you did. Then at the same time what you need to re-manifest the entity.
Any questions?
